<ul style="list-style-type: none"> Refer to attachment

FINAL PROJECT: LANGUAGE LEARNING SOFTWARE (30%)

1. Form a group of 3 or 4.
2. You need to provide and produce a language learning software in education in a form of CD.
3. The software you use in order to complete the project is by using Microsoft PowerPoint version 2013 and below.
4. The content of your software is about English Language learning for secondary school.
5. You may choose any topic and make sure it suits with the Malaysian school syllabus.
6. Use your creativity in designing and developing the software.
7. The transition of slides should be using non-linear complex transitions.
8. Besides of completing the learning software, you need to prepare a written report based on the content and information provided in the CD.
9. The bounded report is basically related to the preparation of the development of the language learning software. It must be based on these 7 items as listed below:
 - a. Introduction – state how the program could help the audiences improve themselves after using the program.
 - b. Develop and include the flowchart of the program
 - c. Include the story board of the program. The story board must be in handwritten or sketched.
 - d. Include the subject content of the program with the help of screenshots and explanation.
 - e. Conclusion and Recommendation – state your hope and the advantages or disadvantages of the program
 - i. Font and spacing : Arial (12) and double-spacing.
 - ii. Cover page : University's Logo, Name of university, followed by Faculty
: Subject Code and Name, followed by semester.
: Lecturer's Name, followed by group's name, matric no.

10. The submission of report and presentation of your language learning software will be held on the same day.
11. The submission and presentation will be in **Week 12 (April 28th 2017)**. **Latest than the stipulated date will affect your mark massively.**

No	Item	Marks
1	Task Fulfillment	10
2	Content	8
3	Language	7
4	Creativity	5
	Total	30
